SONS OF SICILY

MARZO, 2022

## PRESIDENT'S MESSAGE

Dave Geraci

Fratelli,

With winter in the rear view mirror, I am cautiously optimistic that covid will also be a thing of the past. It appears many things are returning to normal. We are on schedule for our first in person crab feed in two years. We will also be electing new officers during the March meeting.

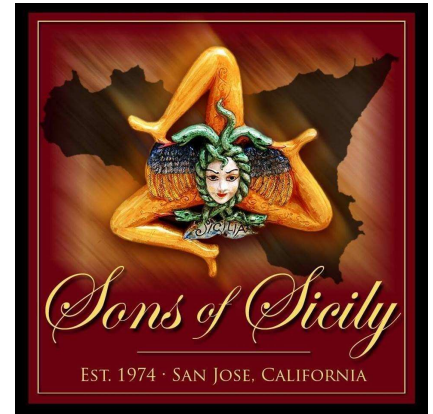

Last month's meeting was a huge success. The number of attendees is starting to pick up. The food and fellowship were amazing as usual. I would like to give a big thanks to Ralph Roberto who tirelessly tends the bar for us, and to Phil Cannizzaro, our Sargent at arms who also heads up the raffle. Thanks for not buying toothpaste. March meeting is a regular meeting, I encourage you all you show up and vote. Unfortunately, I will not be there, but hopefully I will see you all for the installation of officers in April.

Grazie,

*Dave*

**Frati**

Giuseppe Chiaramonte's father Francesco passed away at age 85 on February 6th in Trabia, Sicily.

Rocco Petrunti's mother Mildred passed away on January 16th in Winstead, Connecticut.

Please keep Frank Costa's wife Yvonne in your prayers as she battles cancer

Joe Pizzo's wife Frances broke her leg. Please pray for a speedy recovery.

**Mount Etna—**

Mount Etna is at it again! In recent days, Mount Etna has been very active spewing a lava river, ashes and volcanic stones, high up in the air visible from the International Space Station. No injuries reported as of this writing. Residents and municipal teams of nearby villages worked tirelessly to clean up ashes and volcano stones. The volcanic activities were largely expected, areas surrounding the crater were secured, as of this writing there were no reported injuries or deaths. The eruption which featured spectacular displays of gushing lava, forced the temporary closure of Catania Airport, a frequent occurrence whenever Etna awakes.

temporary closure of Catania Airport, a frequent occurrence whenever Etna awakes.

Mount Etna is Europe's most active volcano and is one of the world's largest continental volcanoes, standing about 10,991 tall, with a broad base spanning roughly 36 by 24 miles. Among all the world's volcanoes, Mount Etna has the longest recorded history of eruptions, dating back to 1500 B.C. Since then, the volcano has erupted about 200 times and has been very active in recent decades.
